2. Offices
3. 1T\$ Plan
4. Activities
5. Finance and Commodity Trading
6. WFBN
7. Commons Cluster
8. Contact and WSF News 2014

1. Summary

This year report is written November 2016 and May 2017. We focus in 2014 on U.N. support, web design and country program development. In July we changed office to The Hague. In October we started Human Resources recruitment. In January we wrote a plan for two trillion US dollar but the funds did not come. At the end of the year we found the first volunteers.

2. Offices

Zwolle, Laren, The Hague. After corporation with Polykarpia, Daniëlle Simons became board member and hold office in Laren. At July Emile rented an apartment with office in The Hague, related with his new WFBN Treasury.

3. 1T\$ Plan

Terry offered a2T trade, supported by Jennifer: WSF2,5% part to stay in HK for trading by Martin. Emile developed a new roll out plan for country climate support. Ganeson, Jimmy en Tan. Rob reports about his meeting with Tan, Sun (en Woh): VOC Goud. Vz T.A. Hernando in ASD. Rob starts interconnecting. Daniëlle travels to Singapore, asks Tan to deliver contact person UBS and foundation background for TTM, stays at Rob en Monika, I ask TTM with Hermanto in ASD. Mvr. Vreugdehil ING places KYC request, which was not delivered but table money.

- Essence SUM – Overall Council
- Stg. WSF – Financial Management
- WSF – World Sustainability Fund HQ + Org.
- WSBank – World Sustainability Bank
- SBF – Sustainable Health Support
- GHC – Sustainable Politics, Law, and Living
- ETG – Sustainable Technologies Production
- SUM – Sustainable Products Outlets

4. Activities

A new website was developed to deliver services on four levels: Global, Country, City, and Home. The Global Commons, VIPcure, Essence, and SUM Foundation websites were stopped in December.

The support to U.N. Open Working Group for Climate Change became responsible for the Sustainable Development Goals (SDG) Agenda 2030. NGOs got their own daily meeting hour with the Co-Shares before the 40 country members meetings. The Commons Cluster was very succesful in delivering detailed advices, global communication to Heads of States, their Ambassadors to the UN, Major Groups, and 1,500 key relations.

In April Emile became Treasurer at WFBN, the Dutch Federalist Movement, member of the WFM. It was a kind of coming back in Holland after many years of focussing on global needs.

In August Davy Foss started at WSF as Human Resource Manager. He connected with PEP and found the first Volunteers: 1 Uganda, 3 WFBN, IntFin, Brazil, Italia, Denmark, Philipines.

In September Emile got inspiration to develop three visionairy presentations:

The First one about the coming global agenda shift, combining Jeremy Rifkin's Internet of Things with Emile's Sustainable Human Rights (SHR), and the U.N. Clean Development Mechanism (CDM) and new SDGs. This led also to Emile's second presentation Re-Bronning, "The New Global Wealth Architecture."

Facing the global financial meltdown, which seems to be part of the new job creation problem – no money, no investment – or maybe the spatial rules are breaking investment power? Anyway countries are stuck in finance, like private are stuck in jobs, read income. The devaluation of money was considered as losing value of labour. So Emile looked to find a sustainable system for keeping labour value save for next generation and own live cycles. So the "160% Wealth" plan came out: Labor decoupled from Finance, which was sent to the U.N. Commons Network and Nobel Prize organization. Nearly no reaction came back. What was missing was a way of implementation in society. The www.timebank.cc in The Hague looked like a solution, but their problem was that opening accounts started with 0,00 so nobody was

to order some labour without dept allowance. In 2015 Emile constructed a solution.

5. Finance and Commodity Trading

WSF did not find investors in 2014, so the cost of the organization was privately funded as a gift by the board members, round about 4 to 6k€. Time spending and cost were considered:

Emile 11x 240 =	2640 hrs
Daniëlle 4x 200 =	800 hrs
Davy 4x 80 =	320 hrs
Other volunteers, 5x 2x 40	400 hrs
Together	4160 hrs

Cost 2014 if paid by WSF

General Expenses	2,000
Traveling, including Singapore	3,000
Office	6,000
Organization á € 50 per hour	208,000
Cost 2014	219,000
Cost 2013, Bussum + 4800 hrs	251,000
Cost 2012/2011 Rio + 2400 hrs	130,000
	600,000

Balance per 31-12-2014

Assets WSF:	25,000,000
Vision, Mission, Concepts	10,000,000
Organization, Network	10,000,000
Project expertise	5,000,000
Shift, Bronning & dLv	EvE property
Cash revenue	0
Liabilities WSF:	600,000
Cost 2014 if paid by WSF	600,000
Equity WSF	24,400,000

Based on the DSL - Dutch State Loans - model, WSF created the *Development Agenda Loans - DAL* - to finance her activities in line with U.N. SDF Outcome Report for the Post 2015 Agenda. It transformed to Bitcoins PALS but wasn't marketed as Tap Auction 2% Post 2015 Agenda loan as of December 15, 2024.

Out of the Uganda contact from the World Federal Movement, Commodity trading in oil and metals got attention, connecting it with Ugandan Ministries and international buyers and investors. December 2014 it seemed to have potential.

6. WFBN

Emile became WFBN member in 2011 and at the annual member council Emile was elected as Treasurer for two years. There were many problems in the organization and commitment to solve them. Emile re-evaluated to the annual reports from 2005 till 2015 and became also treasure of the WFBN

WSF – World Sustainability Fund

2014 Year Report

Assets management foundation. The WFM council was held with 26 countries in The Netherlands. Many new contact were made.

7. Commons Cluster

From 2009 Emile was global communication director of the Commons Cluster for the U.N. Started small, it became monthly activity with Skype meeting, UN NY delegations, NY Office, Vision papers, and monthly reach-outs to the top of global organizations and country leaders. It felt as if we were building a new future, knowing that the outcome would not be good enough to solve the global problem if governments would not give space and priority to the new plans.
