Your Excellency,

SUBJECT: LAUNCHING “160% WEALTH” – GAINING 60% EXTRA WEALTH GROWTH BY DECOUPLING LABOR VALUE REGISTRATION FROM INFLATING CURRENCIES. ERASING POVERTY, GETTING BETTER DAILY LIFE, AND RAISING PENSION SAVINGS.

You are proudly present our latest discovery about prospering the world, called [160% Wealth](#). This discovery came after more than twenty four years contemplation on Sources of Wealth, building the Bronning Philosophy. Some eight years ago I became invited to write a [global poverty reduction plan](#) and involved in the United Nation development planning, now the Post 2015 Agenda.

Two months ago we published our Post 2015 Agenda summary advice called [Re-Bronning – The New Global Wealth Architecture](#). And shortly after that we got the insight that developed to the 160% Wealth discovery, that will change the world and can become the next industrial revolution, and maybe SDG 0.0 – Sustainability Development Goal 0.0.

The 160% Wealth presentation shows in 12 main slides and 21 additional slides the complete wisdom, calculation, and impact; including also extra solutions that will have strong peace and economic impact.

We address this to you so you will be one of the first to know about and can get our early support for evaluation, planning, and integration in your own system.

WSF – World Sustainability Fund

160% Wealth was posted at the Nobel Prize Organization for scientific support (nobelprize.org) and at Silicon Valley Product Hunt for technical support (producthunt.com).

The forecast is, that with fortunate implementation, 50% of the 60% wealth growth can be realised around 2030 and 80% around 2050.

Your support is asked to implement “digital Labor value” registration. It will be reasonable easy to realise related to other economical boosters and the results involved.

Earlier we developed also a [Country level support plan for Sustainable Development](#). Fitting this together we need only one million US dollar to arrange a office in your country and to kick start both national support programs: Integrating the complete Post 2015 Agenda, **REALISING SUSTAINABLE DEVELOPMENT** and **ERASING POVERTY, GETTING BETTER DAILY LIFE, AND RAISING PENSION SAVINGS.**
