World Sustainability Fund

The Implementation Of Labor Bronning & Bronning Of The Global Commons.

Answers To The ZMCS And The Currency Shift
Translated In The U.N. Post 2015 Agenda

Re-Bronning

Bronning = the art of surrounding life
with regeneration (and wealth) sources

Rebronning = The Art To Re-Yield

This presentation follows on the .ppt
“The Global Agenda Shift”

Rebronning

- Un-Finance existence
- Free Work/Labor form finance
- A piece of nature & water, food and energy as birth right for everyone

Nature as real source

Income from common sources

To Smell the Sea

To Listen to the Music

Why ?

To Enjoy

To Love again

To Taste Food

To Experience Nature

Be
Bec

ve
Live

To See my Kids

we will be Back Again

To touch things

To

d Joke

My deepest Why

At 5 year, I remembered how to get eternal life

At 30, I had seen parts of the lives of
Elia, Francis of Assisi, and Leonardo da Vinci

At 33, My nights became enlightened
So I wrote the three Bronning books

At 40, I became time/space traveler
Got a seat at the Cosmic Pyramid of Light

At 50, I learned to travel through energy and matter

Why? Because we are Healing Dancers
Life is Beautiful

The Changing Environments

- Climate causes large (economical) Loss

- YOU NEVER CHANGE THINGS BY FIGHTING THE EXISTING REALITY. TO CHANGE SOMETHING BUILD A NEW MODEL THAT MAKES THE EXISTING MODEL OBSOLETE.

- BUCKMINSTER FULLER

- Cost of housing, energy & food Grow dramatic

Sources of Dewealth

- Labor as a commons high jacked by Finance
- Earth sources high jacked by (economic) War
- Economy high jacked by stock market Owners

Sources of Dewealth

- Countries grow all in Debt to Bank Owners
- Over-population destructs Environment,
also by
- Bank Owners manipulate(d) use of Polluting Technologies

Dewealth Mechanism

- Over-Centralize Rights & Control, Tax & Fines
- Over-Patent & Over-Subsidize Gridable Technologies so that they can be Over-Taxed
- Establish Debt, Interest Systems & Inflation
- Over-Finance Debts & Devalue Currencies

Sources of Dewealth

The Greatest Source of Dewealth

The Currency Shift

- Officials from the USA and IMF announced to be prepared for the fall of the Dollar
- The 1969 IMF SDR or Chinese Yuan will become the global guarantee currency

SDR = Special Drawing Rights

<http://www.imf.org/external/np/exr/facts/sdr.HTM>

allocation on September 9, 2009

Christine LaGarde

IMF Reset, Jan. 15, 2014

SDRs - Friday, October 10, 2014					
Currency	Currency amount under Rule O-1	Exchange rate ¹	U.S. dollar equivalent		Percent change in exchange rate against U.S. dollar from previous calculation
Euro	0.4230	1.26690	0.535899		-0.729
Japanese yen	12.1000	107.76000	0.112287		-0.130
Pound sterling	0.1110	1.60570	0.178233		-0.968
U.S. dollar	0.6600	1.00000	0.660000		
			1.486419		
		U.S.\$1.00 = SDR	0.672758 ²		0.392 ²
		SDR1 = US\$	1.486420 ²		

Naomi Wolf, Dec. 6, 2012

The Universal & USA Preparation Mechanism

1. Invoke an internal and external threat, labouring the enabling act (right to open your mail, listen your phone; government give up their authority to the leader (THE PATRIOT ACT);
2. Secret prisons where torture takes place;
3. Develop a paramilitary force;
4. Survey ordinary citizens (stazi, securitate);
5. Infiltrate citizens groups;
6. Detain and release ordinary citizens;
7. Target key Individuals;
8. Restrict the press;
9. Recast criticism as espionage and dissent as treason (betrayal);
10. Army in own streets (2008 – bourse crash).

Ron Paul, Jun. 28, 2011

AMERICA IS GONE!! Listen to this...

It is over! WAKE UP PLEASE!!!.

Michael Maloney, June 10, 2014

End Of USA Dominance - Death Of The Dollar Update

The image is a screenshot of a video player. The main video shows Michael Maloney, a man with light hair, wearing a dark suit, white shirt, and grey tie, speaking at a podium. A nameplate on the podium reads "MICHAEL MALONEY" and "JUNE 2014, VANCOUVER". In the background, a large screen displays a graph with a blue curve and red lines, with the text "HIDDEN SECRETS OF MONEY.COM" at the top. A smaller inset video in the top left corner shows a wider view of the stage and audience. The video player interface at the bottom includes a progress bar, a play/pause button, a volume icon, and a timestamp of "1:49 / 24:52".

HIDDEN SECRETS OF MONEY.COM

JUNE 2014, VANCOUVER

1:49 / 24:52

Cycles to break

- The 1.000 year East-West Cycle
- The 30 year War & Monetary Cycle
- The 60 year Long Economic Cycle

What to do

- Free Labor from Finance => One global hour for hour labor exchange (account) system
- Make Earth Sources a commons => Share common sources use and profit
- Free Economy from stock market Owners => Non-speculation but Creation Economics

What to do

Setup The four types of income

1. **Own land income:**
 - Self housing, harvest, creativity, rest & happiness
2. **Community income:**
 - Mutual services as youth, education & elder care
3. **Social income:**
 - Mutual work on, and use of, common structures
4. **Commercial income:**
 - Rest time free labor creativity, prosuming & sales
5. **Philanthropic income:**
 - Give away & Free receive of over values & happiness

worldsustainabilityfund.nl

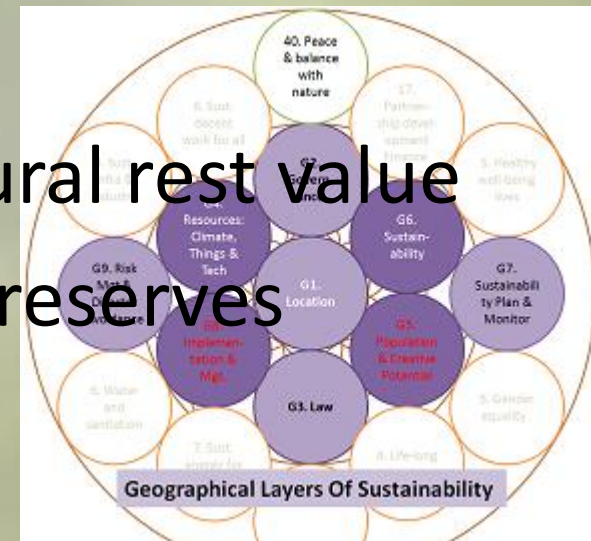

- Maintain Non-Debt policies => **Four type of income have to guarantee Debt-Free Living**
- Stop Over-population => **Plan population degrowth**
- Set-Free Cleaner Technologies => **by Rule of Law and Governance**

How

Commons GLOS action on Finance

- **Value Own land lots** and make them free for transition, realize the infrastructure
- **Allow federations** to setup their own Bronning and Commons admin, integrate systems
- **Plan the impact** on financial institutions, prepare them for reorganization
- **Restrict sustainable use** and natural rest value
- Create Own land based pension reserves

How

Global Financial & Tax Blueprint

- **Implement Land and Community income** for unemployed, setup support and admin, will create more services, health and happiness, kick starts poverty alleviation
- **Shift step by step to more social production** and income by setup of support, offer easy to transfer jobs; offer financial equivalent consumption possibilities; quote needs
- **Transit to one equal labor hour rate** for each level of education and job heaviness; it makes global commerce prices more equal, which spread jobs and lower transport

All this will lead to lower tax and lean finance

How to transit

- Let unemployed & Army start => Remodeling to the four type of income and use of land
- Stop Over-population => Communicate the right population degrowth, how and impact
- Set-Free Cleaner Technologies => Reform Tax system based on common wealth, finance & insurance use of cleaner technologies

How to control damage

- Develop a soft dollar crash system & after-crash support => Monitor and moderate, share the pain
- Finance the New Economic system including the Post 2015 Agenda => Non-inflation policies & moderated debt remission
- Educate & Redistribute population over free and low populate areas => By internet & minimum distance and free chose offers

Re-Bronning

Bronning = the art of surrounding life
with regeneration (and wealth) sources

Rebronning = The Art To Re-Yield

“The Global Agenda Shift”

Rebronning

The New Global Wealth Architecture:

1. Wealth Experience Time
2. Labor Time and Skills
3. Products and Semi-Products
4. Technological Assets
5. Raw materials and Resource Areas

The New Global Wealth Architecture

Fix ten global rates for Labor value exchange:

1. Lower Educated work 1 hour for 1 hour
2. Mid Educated work 1 hour for 1,2 hour
3. Mi & Skilled work 1 hour for 1,3 hour
4. Higher Educated work 1 hour for 1,4 hour
5. Hi Skilled work 1 hour for 1,5 hour
6. Master Educated work 1 hour for 1,6 hour
7. Ma & Skilled work 1 hour for 1,7 hour
8. Post Master E&S work 1 hour for 1,8 hour
9. Multi PM E&S International work 1/1,9
10. Multi PM E&S Global work 1/2,0 hour

A green circular logo with the text 'dLv' in white. The 'd' is lowercase and the 'Lv' is uppercase. The logo is positioned in the bottom right corner of the slide.

dLv

The New Global Wealth Architecture

Setup The four types of income

1. Own land income:
 - Self housing, harvest, creativity, rest & happiness
2. Community income:
 - Mutual services as youth, education & elder care
3. Social income:
 - Mutual work on, and use of, common structures
4. Commercial income:
 - Rest time free labor creativity, prosuming & sales
5. Philanthropic income:
 - Give away & Free receive of over values & happiness

The New Global Wealth Architecture

Administer a hour account for everyone:

1. Book at birth the Life Potential Basic Credits, for instance 1.600 hours x 40 year = 64.000 hour credits , reserve 25% exclusively for Mutual's
2. Book each grow-up year Debit the type 2 & 3 costs (Mutual Community & Social Services)
3. Let participate in Labor Delivery type 2-4 and make available Debit/Credit booking for hours value exchange

Setup The four types of income

1. Own land income:
 - Self housing, harvest, creativity, rest & happiness
2. Community income:
 - Mutual services as youth, education & elder care
3. Social income:
 - Mutual work on, and use of, common structures
4. Commercial income:
 - Rest time free labor creativity, prosuming & sales
5. Philanthropic income:
 - Give away & Free receive of over values & l

digital Labor value

worldsustainabilityfund.nl

The New Global Wealth Architecture

Administer a hour account for everyone:

4. Book each pension year Debit the type 2 & 3 costs (Mutual's)
5. Calculate early death & unabled Risks: and co-calculate them in the need for type 2-3 compensation
6. Allow work participation after pension

Setup The four types of income

1. Own land income:
 - Self housing, harvest, creativity, rest & happiness
2. Community income:
 - Mutual services as youth, education & elder care
3. Social income:
 - Mutual work on, and use of, common structures
4. Commercial income:
 - Rest time free labor creativity, prosuming & sales
5. Philanthropic income:
 - Give away & Free receive of over values & l

digital Labor value

worldsustainabilityfund.nl

The New Global Wealth Architecture

Labor is this way free from money and finance: It will flow free

Without need on average of 6% unemployment to manipulate labor pricing. **This rises equally the labor capacity**

Also it is free from in- & deflation, so it will not crash and loses pension or exchange value

dLv

Setup The four types of income

1. **Own land income:**
 - Self housing, harvest, creativity, rest & happiness
2. **Community income:**
 - Mutual services as youth, education & elder care
3. **Social income:**
 - Mutual work on, and use of, common structures
4. **Commercial income:**
 - Rest time free labor creativity, prosuming & sales
5. **Philanthropic income:**
 - Give away & Free receive of over values & l

The New Global Wealth Architecture

Make Earth Sources a commons => Share
common sources use and profit

Common Goods

- Planet Earth
- Biosphere, mass, living creatures
- Waters and air
- Earth, elements, minerals, gasses and fuels
- Common fields, infrastructure, and buildings
- Culture, knowledge, heritage
- Telephony, internet, and free software
- Wind, sunshine, thermal and water energy

The New Global Wealth Architecture

Share common sources use and profit

- 31. A part of the global land and water will be common wealth to ensure sustainability of nature and species.
- 33. Everyone gets (for instance) 1.000 m² of fertile land on which enough sun and water enters to produce good food, healthy living, and land value difference compensation.
- 36. Everyone gets a pollution quote and the right on healthy air and surrounding.
- 37. Everyone has the right on correct information and sufficient education.

The Ten Bronning Rights

- 31. A part of the global land and water will be common wealth to ensure sustainability of nature and species.
- 32. Everyone has the right to visit (parts of) common nature.
- 33. Everyone gets (for instance) 1.000 m² of fertile land on which enough sun and water enters to produce good food, healthy living, and land value difference compensation.
- 34. Everyone gets the right and duty to get and give care to the commons and peoples with disabilities and at age as a local service – part of lifetime activity.
- 35. Everyone gets free energy in an reasonable amount to has good light, heating and cooling, cleaning, internet, and telephone.
- 36. Everyone gets a pollution quote and the right on healthy air and surrounding.
- 37. Everyone has the right on correct information and sufficient education.
- 38. Everyone has the right to work on four levels – based on green technology: On his own land; On community services; On social services; On commercial services.
- 39. Everyone has the right to (let) labor his land, build a house on it and to exchange with others. After dying the land may stay for max. five year in the family. Then it will be free for giving it away to the community which will give it to a new born child.
- 40. Mankind has the right to live in peace and harmony with nature by finding together the right proportions for the above by becoming aware of interrelationships as population, food, rich natural environment, and the needed spiritual emotional balance.

The New Global Wealth Architecture

Share common sources use and profit

- 31. A part of the global land and water will be common wealth => Select area's and arrange governance
- 33. Everyone gets (for instance) 1.000 m² of fertile land => Select area's and arrange administration
- 36. Everyone gets a pollution quote and the right on healthy air and surrounding => Calculate, Enlaw, Distribute, Transit, Manage
- 37. Everyone has the right on correct information and sufficient education => Guarantee Internet, avoid sickly information but don't judge opinions

The New Global Wealth Architecture

Share common sources use and profit

After calculation of needed land for biodiversity,
Individual land, cities & infrastructure, there will
be a large left-over of common land

This be leased for commercial use and minerals
yield. The lease profit will be common income to
distribute over entire population

The before the transition private own Commons will
be partly confiscated so that both have a
comfortable result

The New Global Wealth Architecture

Live must be labor & resources based, not Stock Market sentiment or Stock Market Owners based => Non-speculation but Creation Economics

Eliminate first all third or more grade derivatives
Re-Appreciate business value: transition based on the new global wealth architecture

The New Global Wealth Architecture

Maintain Non-Debt policies => The rules for Four
type of income have to guarantee Debt-Free
Living:

Everyone starts life with an own piece of land and
64.000 dLv credits, which enables labor free
grow-up, care, and education

All able to work has to spend 16.000 hour
equivalent on mutual service

Nobody is allowed to consume more then 50% of
her/his “remained life expectancy labor capacity”

Setup The four types of income

1. **Own land income:**
 - Self housing, harvest, creativity, rest & happiness
2. **Community income:**
 - Mutual services as youth, education & elder care
3. **Social income:**
 - Mutual work on, and use of, common structures
4. **Commercial income:**
 - Rest time free labor creativity, programming & sales
5. **Philanthropic income:**
 - Give away & Free receive of over values & happiness

worldsustainabilityfund.nl

The New Global Wealth Architecture

Stop Over-population => Plan population degrowth

Based on natural resources, natural food growth & living on own land, villages or cities, space for biodiversity, and appropriate commercial development, we need to calculate the optimum population number per country and province

Then we have to fit the redistribution and (de)growth habits by good education and healthcare support

Setup The four types of income

1. Own land income:

- Self housing, harvest, creativity, rest & happiness

2. Community income:

- Mutual services as youth, education & elder care

3. Social income:

- Mutual work on, and use of, common structures

4. Commercial income:

- Best time free labor creativity, producing & sales

5. Charity income:

- Give away & Free receive of over values & happiness

worldsustainabilityfund.nl

The New Global Wealth Architecture

Set-Free Cleaner Technologies =>
by Rule of Law and Governance:

- Time release Patents that effect positive sustainable development
- Shift subsidizing from tax-profit related to sustainability related profit, finance development
- Educate sustainable living, labor, service, business growth, and governance

Setup The four types of income

1. Self housing income:

- Self housing, harvest, creativity, rest & happiness

2. Community income:

- Mutual services as youth, education & elder care

3. Social income:

- Mutual work on, and use of, common structures

4. Commercial income:

- Rest time free labor creativity, prosuming & sales

5. Philanthropic income:

- Give away & Free receive of over values & happiness

2015 Agenda

Weakness & Threats

It is never done before

Yes and so it delivers a challenge

Governments have to take their responsibility

By their responsible consciousness

Bank & Business Owners will have to adjust their
assets & operations

But most of them can, without losing good wealth

Translated In The U.N. Post 2015 Agenda

Weakness & Threats

Somebody can invent a better solution

We can change for the better

Although implementation can now partly start,
complete realization can take 30 to 60 years

But it generates sufficient jobs

Possible miscalculations in parameters as expected
life time & population planning

Maintain monitoring & early warning systems

Translated In The U.N. Post 2015 Agenda

Strength & Opportunities

Rebronning is a multi-millennium game changer

It breaks down slavery and poverty

It prevents impossible technological wars

Translated In The U.N. Post 2015 Agenda

Strength & Opportunities

Rebronning will set free human creativity

It overcomes ASR - Automatisatisation, Sensor &
Robotics - driven de-employment & poverty

It will excite people

Q & A

Rebron

For A Reborn Society
