

WSF – World Sustainability Fund

Annual Report 2020-2021, Forecast 2022

Corona & Climate Change

2020 and 2021 the Corona Pandemic changed the World. Lockdowns and Extreme Weather hid every continent. Was 2020 UN Conference of the Parties ambitious, COP 2021 in Glasgow was addressed as The Last Chance to commit to and act for <2°C. Facing present results 4°C is the fear.

We like to keep this Annual report short and clear. For WSF not much change. The market grew in our direction. We are waiting to moment to click.
