## INTRODUCTION

Dear Sir/Madam,

The World Sustainability Fund is a global organization that facilitates initiatives that contribute to sustainable life on earth: Ready to support you in your business, g.o. or n.g.o. needs.

### **WSF Project Services**

- Matching United Nations (UN) Baseline Clean Development Methodologies (CDM's) with local sustainable development needs.
- Supporting new technologies to become UN Baseline CDM's.
- Initiating and participation in sustainable projects.
- Building consortia and joint ventures for realization of sustainable projects.
- Arranging UN CDM project development and realization loans and investments.
- Monitoring project performance.
- Management consulting and arranging technical expertise.

### **Customer profiles**

1. The requesting organization must have a proven solid financial and organizational background;
2. Based on complete business or project investment plan following the international format;
3. Own free funds to cover in general at least 30% the investment plan (equity +/- intangible assets);
4. Proven technologies only (U.N. CDM or independent test reports, qualifying emission reduction);
5. If applying for U.N. CDM project recognition WSF offers cost based support (Loan Scheme and DOE).

### **Financial Network**

WSF is connected with the CDP, SWF, IMF, World Bank, and some Dutch Green banks.

CDP, The Carbon Disclosure Program, has over 700 member institutes for funding green development, with US\$ 87.000 billion of means;

SWF, the Sovereign Wealth Funds, has over 60 members with US\$ 6.000 billion;

IMF and World Bank are U.N. related and have a number of specific funds;

Dutch Green banks: BNP Paribas Groen Fonds, ABN AMRO Groenbank, ASN Groenprojectenfonds, ASN Groenbank N.V., ING Groenbank N.V., Rabo Groen Bank B.V., Nationaal Groenfond, Triodos Groenfond N.V..

### **WSF Primary Services**

1. Collecting donations for sustainability in all countries;
2. Co-defining the Needed level of Global and Local Sustainability;
3. Communicating "The Gap" between "The Future We Need" and the U.N. "The Future We Want";
4. Mapping "The Most Polluting Habits and Productions";
5. Mapping "The Best Clean Development Methodologies";

6. Co-creation “The Future We Need”;
7. Delegating, monitoring, and reporting “The Future We Need” Projects;
8. Funding and Financing “The Future We Need” Projects.

### WSF Principles

- We are transparent in our actions and in how we provide structure for our organization and relations.
- We act out of compassion for every life form and every individual.
- We communicate with respect for each other and clarity in our message.
- We add value by connecting to what is needed and by providing customized support.

### UNFCCC DURBAN - DEC. 9th, 2011 - Agreed Conclusion of the Conference and Members:

"In the UNFCCC in Durban, it was decided that all contributing countries will make a description of nationally appropriate mitigation actions and seeking international support, with the:

- (a) Mitigation actions to realize a sustainable future;
- (b) Including contact information;
- (c) Expected timeframe for the implementation;
- (d) Estimated full costs;
- (e) Amount and type of support (financial, technological and capacity building);
- (f) Estimated emission reductions.

### Sectors of support
